

ezfinder Account Creation Guide

Version 1.0

The screenshot displays the ezfinder web application interface. At the top, there is a navigation bar with the ezfinder logo and a user greeting: "v 29, 2011 > Welcome Administrator, Default." Below this is a menu bar with options: Main, Manage, Windows, Help, Sign Out. A secondary bar includes "Language English", "Map Google", "Update Positions 60 sec(s)", and "Group Default".

The main content area is divided into several sections:

- Live Tracking:** Includes a "Map" section with a Google Map showing several trackers. A context menu is open over the map with options: "Cascade Windows", "Tile Windows", "Minimize All Windows", and "Close All Windows".
- Trackers to view:** A section with a dropdown menu set to "All trackers".
- Trackers Table:** A table listing trackers with columns for Tracker Name, IMEI, and Show.

Tracker Name	IMEI	Show
TR-206-YY	35793802031	<input checked="" type="checkbox"/>
sunhome TR-203	01141200129	<input checked="" type="checkbox"/>

1. SYSTEM REQUIREMENTS

- Internet connection (High speed recommended).
- Supported Web Browsers: Google Chrome, Mozilla Firefox, Apple Safari, Internet Explorer. Please use the latest versions of these web browsers. For optimal viewing, Google Chrome or Mozilla Firefox is recommended.

2. SIM CARD

Your GPS tracker requires a SIM Card to function. Before accessing the ezFinder service, please follow these instructions:

- Disable the (i) PIN entry, (ii) voicemail, (iii) call waiting and (iv) call forwarding functions of the SIM card.
- Make sure your SIM card has enough credit.
- Make sure your SIM card can send & receive SMS.
- Make sure your SIM Card can send & receive data by GPRS. If you can surf the Internet with the SIM card using a mobile phone, then the GPRS should be enabled.
- Confirm with your telecom operator its APN, GPRS User ID and GPRS Password. This information is needed to configure your device as will be explained later.
- Make sure your SIM card is correctly inserted into your tracker as per the tracker's user manual.

3. TRACKING DEVICE

Before accessing the ezfinder service, please make sure that:

- Your tracker is eligible for the ezfinder service. Confirm with vendor.
- The battery of your tracker is fully charged.
- Your tracker is turned ON.
- A suitable and working SIM Card is correctly inserted into the tracker (see instructions on SIM cards below).

4. ACCOUNT CREATION

- Open your web browser and type in the following address into the address bar :
www.ezfinder.com.tw

- Register for a new account by clicking on “Register for an account”.

A new, easy-to-use GPS tracking platform

Different screens available. Each account can contain multiple trackers. Supports most common web-browsers.

No special software required. You can simply use a compatible web-browser.

6. TRACKER SETUP

6.1) Step 1. Preparation Config

Tracker Setup

Tracker Name: YouYu-TR206 SIM Card Phone Number: +886932911799 SMS Credit(s): 3

Preparation

Please follow these steps before configuring your tracker:

1. Make sure your SIM card has enough credit.
2. Make sure your SIM card can send & receive SMS.
3. Make sure your SIM Card send & receive data by GPRS.
4. Disable the (i) SIM PIN entry, (ii) voicemail, (iii) call waiting and (iv) call forwarding functions of the SIM card.
5. Confirm with your telecom operator its APN, GPRS User ID and GPRS Password. This information is needed for configuration.
6. Make sure your SIM card is correctly inserted into your tracker as per the tracker's user manual.
7. Make sure your tracker is fully charged and turned ON.

I have completed all steps.

Next >

Step1 Preparation **Step2** GPRS Setting **Step3** Emergency Button **Step4** Report Interval **Step5** Confirm Configuration

Copyright © 2011-2012 www.ezfinder.com.tw All Rights Reserved.

Please follow these steps before configuring your tracker:

- a. Make sure your SIM card has enough credit.
- b. Make sure your SIM card can send & receive SMS.
- c. Make sure your SIM Card send & receive data by GPRS.
- d. Disable the (i) SIM PIN entry, (ii) voicemail, (iii) call waiting and (iv) call forwarding functions of the SIM card.
- e. Confirm with your telecom operator its APN, GPRS User ID and GPRS Password. This information is needed for configuration.
- f. Make sure your SIM card is correctly inserted into your tracker as per the tracker's user manual.
- g. Make sure your tracker is fully charged and turned ON.

If the SIM card and the device to complete the above settings, please check the “I have completed all steps” box, and click “Next” to Step 2 GPRS Setting.

6.2) Step 2. GPRS Setting

In this step, you will set up the GPRS configuration of your tracker.

IMPORTANT: You must always confirm the APN, GPRS User ID and GPRS password with your telecom company. These are subject to change, so the information in the pull-down list and the auto-populated data may not be up-to-date. If the auto-populated data is incorrect, you can manually enter the right information.

Telecom Operator: Chunghwa(中華電信) ▾

APN*: internet

User:

Password:

Step1 Preparation **Step2 GPRS Setting** Step3 Emergency Button Step4 Report Interval Step5 Confirm Configuration

Copyright © 2011-2012 www.ezfinder.com.tw All Rights Reserved.

- Complete the fields with the information obtained from your telecom operator. "Country" and "Telecom Operator" are optional, so you need not complete them if your country or operator does not appear in the list. If your telecom company does not have a GPRS User ID or a GPRS Password, the corresponding fields must be left blank. Click on "Send" when done.
- After clicking on "Send Command", you will see a request for confirmation.
- Click on "Confirm" to finalize the configuration and send the commands, otherwise, click on "Cancel".

Command to send:

GSC,357938020310017,L4(D8=02,D1=internet,E0=60.251.105.108,E1=5000,OM=1,A1=1,A2=20,J6=03,C3=30,OS=120),N2*40!

- After clicking on "Confirm" and "Next" to the next step. This is to give the device enough time to receive and integrate the command. Some tracker models will vibrate after they receive a command, which helps users confirm the reception of the command. (For example: Globalsat TR-203 vibrates when it receives a command).

Command has been sent.

If your tracker vibrates, it means the command has been received successfully.(After sending all comands, please restart the tracker for new changes to take effect)

In case tracker did not receive SMS, use any cell phone or Skype to resend the command:

GSC,357938020310017,L4(D8=02,D1=internet,E0=60.251.105.108,E1=5000,OM=1,A1=1,A2=20,J6=03,C3=30,OS=120),N2*40!

6.3) STEP 3. Emergency Button

“Emergency SMS Phone Number” is the phone number to which your tracker will send an SMS when the alert button is pressed long enough for the alert function to be activated (so please be sure that the phone is capable of receiving SMS). Please enter this phone number with all the prefixes or digits that would normally be required for the tracker’s SIM card to call such phone number. To complete this step, you must enter at least one emergency phone number (up to a maximum of three).

Tracker Setup

Tracker Name: YouYu-TR206 SIM Card Phone Number: +886932911799 SMS Credit(s): 2

Emergency Button

When emergency button is activated, send emergency SMS to:

Emergency SMS Phone Number 1 *

Emergency SMS Phone Number 2

Emergency SMS Phone Number 3

- Step1 Preparation
- Step2 GPRS Setting
- Step3 Emergency Button**
- Step4 Report Interval
- Step5 Confirm Configuration

Copyright © 2011-2012 www.ezfinder.com.tw All Rights Reserved.

(a) After clicking on “Send Command”, you will see a request for confirmation.

Command to send:
GSC,357938020310017,L4(G0=0988777123,F0=0988777123,F2=1,H0=03,H1=1,H2=300,H3=0,OR=0),N2*3F!

(b) Click on “Confirm” to finalize the configuration and send the commands, otherwise, click on “Cancel”.

(c) Click on “Confirm” , SMS command has been sent to device, click “Next” to Step 4 Report interval.

Command has been sent.
If your tracker vibrates, it means the command has been received successfully.(After sending all comands, please restart the tracker for new changes to take effect)
In case tracker did not receive SMS, use any cell phone or Skype to resend the command:
GSC,357938020310017,L4(G0=0988777123,F0=0988777123,F2=1,H0=03,H1=1,H2=300,H3=0,OR=0),N2*3F!

6.4) STEP 4 .REPORT INTERVAL

www.ezfinder.com.tw

Tracker Setup

Tracker Name: YouYu-TR206 SIM Card Phone Number: +886932911799 SMS Credit(s): 1

Report Interval

Report Mode: You selected Report Mode: **Periodic**.
Tracker will report every 1 min(s) periodically.

Periodic Report Interval:

Motion Report Interval:

Static Report Interval:

Motion Sensitivity:

*** Tracker data usage is about 600 bytes per report
*** Click [here](#) for battery duration comparison

Step1 Preparation Step2 GPRS Setting Step3 Emergency Button **Step4 Report Interval** Step5 Confirm Configuration

Copyright © 2011-2012 www.ezfinder.com.tw All Rights Reserved.

In this step, you decide how the device will report back to the server. There are 3 different selections under “Report Mode”: Periodic Mode, Motion Mode and Standby Mode. Select the desired Report Mode and choose the desired values from the appropriate drop down lists (some fields will be grayed out depending on the mode selected).

Periodic Mode: Your tracker will report its location to the server at the set interval regardless of whether the tracker is moving or not.

Motion Mode: Your tracker will report its location to the server at the interval set under “Motion Report Interval” when the motion sensor detects movement; when no movement is detected, the tracker will report back at the interval set under “Static Report Interval”.

Standby Mode: Your tracker will only report its location to the server when you send a command requesting its location.

Motion Sensitivity: This setting is used to determine how sensitive the built-in motion sensor will be. This setting is used for Motion Mode.

Click on “Send Commands” when done, then click on “Confirm” .
Click on “Confirm” , SMS command has been sent to device, click “Next” to Step 5 Confirm Configuration.

Command to send:

GSC,357938020310017,M2(P0=60,P2=02,O8=1),N2,LH*19!

Confirm

Cancel

Command has been sent.

If your tracker vibrates, it means the command has been received successfully.(After sending all comands, please resta
tracker for new changes to take effect)

In case tracker did not receive SMS, use any cell phone or Skype to resend the command:

GSC,357938020310017,M2(P0=60,P2=02,O8=1),N2,LH*19!

6.5) STEP 5. CONFIRM CONFIGURATION

please check the “I have completed all steps” box, and click “Start Tracking” to start using ezfinder.
